Autumn Term | 13th October 2017 Issue 6

Year 1 – Wild Wood Visit

This week year 1 have been learning about Autumn and the seasonal changes that happen to the plants and animals that live in woodland. We have looked closely at a playground tree which we will revisit across the school year to see the effect of seasonal change. As part of our work we visited the Wild Wood at the Early Years Centre and used magnifying glasses to closely observe mini-beasts in their natural habitats.

In maths we have been learning about subtraction and have begun to look at 2D shapes.

Nursery Community Breakfast

Thank you to all of the parents who joined us for our community breakfast. The children adored having their special people spend time in their classrooms. Everybody enjoyed having breakfast, snacks and playing in the nursery. ***Thank you again for your continued support.***

Year 2 - Scented Garden Topic

All the year 2s have been very busy with their scented garden topic. We've explored different plants using our senses, also naming common and new flowers and herbs. We made a class bar graph to show what our favourite smells are. We know what plants need to grow well and even know how some plants adapt to their environment to survive, like cacti in the desert and tall plants in the rainforest. We are busy designing our own fantasy gardens.

Coffee Mornings for parents of children with additional needs
